

# Eneabba Rare Earths Project

Iluka Resources (Fluor) | \$1M | September 24 - Current

## About The Project

The Eneabba Rare Earths Project, led by Iluka Resources, required specialised support to ensure effective construction planning and execution. This involved providing expert advice on constructability, developing scheduling services, and creating lifting and modularisation concepts and studies. Additionally, Pantera assisted in contractor selection and evaluation, playing a key role in the formation of the construction segment of the EPCM/Owner team. The aim was to optimise construction processes while maintaining the highest standards of safety and quality.

## Project Scope

- / Provided constructability advice for efficient planning and execution.
- / Delivered scheduling services to ensure timely milestone completion.
- / Developed lifting and modularisation concepts to streamline processes.
- / Conducted contractor selection and evaluation to ensure quality and safety.
